HOME PAGE

HOME PAGE

The online Library Management System is classified into two parts Bar Code System and RFID System. Library plays an important role in all schools and colleges, no educational institution can exist without Library Administration Software. It is an important part of every school and college and it helps the librarian to keep records of available books as well as issued books. Library Management System software helps in different ways by providing students the facility to learn, gather resources, promote group learning and improve knowledge and skills.

Features of Online Library Management System

1. Integration of all records of students
2. Manage the records systematically
3. It can track any information online
4. One can generate the reports
5. Manage all information online
6. Easy to maintain records
7. It leads to fast book entry

ADVANTAGES OF ONLINE LIBRARY MANAGEMENT SYSTEM

- It is user-friendly software
- It is cost-effective and easy to install
- It helps in maintaining records
- One can track any information through this system
- It increases the efficiency
- It reduces the chances of error
- It acts as an anti-theft

As discussed, the Online Library Management System is categorized into two parts bar code system and RFID system.

In a bar code system, books a unique bar code number is assigned to every book and with the help of a bar code reader, we can check the status of the book like when it is issued and returned. While RFID based library management system is a wireless-based system which helps in easy maintenance of records, which reduces the burden of a librarian and lead to fast-tracking of record.

BOOKS PAGE

A screenshot of a web browser window. The address bar shows '127.0.0.1:5500/BOOKS.html'. The page has a yellow background and is titled 'Online Library Management System'. Below the title, it says 'Library BOOKS'. There are four input fields: 'title', 'author', 'published', and 'choose one' (which is a dropdown menu). A 'Submit' button is located below the input fields. The browser's taskbar at the bottom shows various icons and the system clock indicating 19:24 on 05-03-2024.
